Steve,

Due to testing irregularities, AUA will allow you a retake on the Vocabulary section on Tuesday between 3 and 4 PM. Please see Deneen for further details and arrangements. Please note that the test may look different and have new/different content?

You will need a total score of 560 out of 800 questions. 80% (640 questions) less the 10% curve = 560 questions

Hi class !:

I hope that now you are resting and getting ready for your clinical rotations:

For those of you who took the Final exam using Scholar360, I need you to e-mail me your evaluation of that Program. Exclude from it the vocabulary portion that was not good because we did not have the time to correct it.

Include in your evaluation how did you like the format, grade of difficulty to understand and answer questions, the format and clarity of screens, including images and graphics, the speed with which you received the scores and any other aspect that you like to talk about. Finally, your suggestions about possible improvements.

- ▶ A certified nurse aide (CNA) in Colorado was excluded for 25 years as a result of being convicted for sexual assault against an elderly nursing home patient who suffered from Alzheimer's. The aide was sentenced to serve 15 years-to-life in prison.
- ▶ An Oklahoma pediatrician was excluded for 50 years based on his conviction for abuse of minor patients. The physician confessed to abusing 18 children, all under the age of 16, over a period that spanned 20 years.
- ▶ A DME sales representative in Florida was excluded for 28 years after his conviction for participating in a scheme to bill Medicare for millions of dollars in medically unnecessary DME items.
- ▶ A South Carolina physician was excluded for 26 years after his conviction for his part in a scheme to sell prescriptions for controlled substances such as OxyContin and Percocet.

Other Administrative Enforcement Actions – Civil Monetary Penalties

The Office of Inspector General has authority to impose civil monetary penalties (CMPs) against providers and suppliers who knowingly submit false claims to the government, who participate in unlawful patient referral or kickback schemes, who fail to appropriately treat or refer patients who present at hospital emergency rooms, or who engage in other activities prescribed in statute. The HHS/OIG has stepped up its affirmative enforcement actions under these authorities. The PharMerica case discussed previously is one example. Others are:

- ▶ The Visiting Nurse Association of Washington, D.C. (now MedStar Health Visiting Nurse Association) and its home office, Visiting Nurse Association, Inc., agreed to pay more than \$1.3 million to resolve its liability for allegedly filing Medicare cost reports containing services that were not provided as claimed. The inquiry involved alleged transactions with related third parties that were not disclosed or documented. The company also entered a five-year CIA.
- ▶ A former hospital Chief Executive Officer (CEO) in Nebraska entered an agreement with the HHS/OIG to resolve his potential liability for allegedly paying kickbacks to a physician in the form of loan guarantees, consultant fees and discounts in exchange for referral of Medicare business. The CEO, too, received annual bonuses that allegedly were based on the referrals. The hospital previously entered a settlement agreement with the United States to resolve potential liability under the FCA for the same alleged conduct.
- ▶ St. Joseph Mercy-Oakland Hospital in Michigan agreed to pay \$4 million for allegedly violating the anti-kickback statute and Stark law in connection with financial arrangements between the hospital and more than a dozen physician groups. The hospital voluntarily disclosed the potential violations under the HHS/OIG's "Provider Self-Disclosure Protocol."
